**DETAILED ACTION**

***Response to Amendment***

1. The amendment filed on 08 January 2009 has been accepted and entered.

***Allowable Subject Matter***

2. Claims 1-12 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art of record does not disclose or reasonably suggest, along with the other claimed limitations, a method of manufacturing a slip-resistant photo-luminescent device comprising: namely the combination of, preparing a first powdered component of resin and friction-enhancing material; preparing a second powdered component of resin and a photo-luminescent pigment; and fusing the resins to bond them to the surface of a substrate within separate recesses. Prior art, such as Connew, teaches the use of a photo-luminescent strip set in a substrate's recess. The shape of the apparatus provides added traction without the need of a friction-enhanced parallel strip. Andreo teaches a similar device but in his embodiment the strip set in the substrate recess is a non-slip material. A photo-luminescent material is coated in between the strips of non-slip material in order to provide protection from direct foot traffic. However, Andreo teaches away from the instant invention because the instant invention places the photo-luminescent material in contact with foot traffic; something Andreo specifically strives to avoid.

Regarding claims 2-10, the claims are allowed due to their dependence upon an already allowed claim and lack of technical errors.

Regarding claim 11, the prior art of record does not disclose or reasonably suggest, along with the other claimed limitations, a slip-resistant photo-luminescent device comprising: namely the combination of, a substrate with a strip of photo-luminescent material bonded into a first recess; a strip of friction-enhancing material bonded into a second recess; wherein both materials are heat cured resins fused to the recesses' surfaces. For additional reason for allowance, please see the explanation attached to claim 1 above.

Regarding claim 12, the claim is allowed due to its dependence upon an already allowed claim and lack of technical errors.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Response to Arguments***

4. Applicant's arguments, see page 4 of the amendment, filed 08 January 2009, with respect to claim 1-12 have been fully considered and are persuasive. The cancellation of claim 13 has placed the instant application in a condition for allowance.

#### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

US 7,297,388 B2 – Dimond discloses a hopper dispensing system for luminescent powder.

US 6,726,952 B1 – Dimond discloses a hopper dispensing system for luminescent powder.

US 5,103,608 A – Andreo discloses a stair nosing with photo-luminescent material coated between non-slip strips.

US 4,998,391 A – Connew discloses a stair nosing with photo-luminescent strips.
